BAZOEKA JO
ART/DESIGN

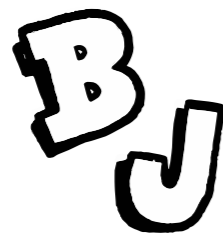

Bazoeka Joe is the (not so!) new kid on the block when it comes to presenting limited editions in design furniture, exclusive fine art, and sculptures. Not so new, since we have been around the block quite a few times and have been active in the world of art and design for many years now.

But what is new, is our platform for new talents in design and art. For which, needless to say, we developed a very clear eye over the years.

We have great plans for our platform and will expand our product lines with promising new designs and designers. Our first line is a wide range of unique tables, with stunning tabletops on high-design frames. Come in and have a look!

We also present various unique one-off tables and other art pieces for you to choose from. Among which many are finished with high-quality epoxy resin for a brilliant effect.
